## Earnings momentum continue; however, downgrade to SELL based on expensive valuation

Better-than-expected operating margins and higher-other-income offsets lower-than-expected growth in sales for Ajanta Pharma (AJP IN) for the quarter. AJP's adjusted PAT has been growing consistently at more than $40 \%$ for six quarters now. We maintain our estimates for FY15 and FY16. We continue to value AJP at 17x FY16E EPS of Rs92.3 to arrive at price target of Rs1,569. We remain confident on business model of AJP due to superior historical performance as well as key drivers in place to maintain momentum going forward. However, we downgrade the stock to SELL based on expensive valuation.

| Particulars (Rs Mn) | Q2FY15 | Q2FY14A | Q1FY15A | YoY \% | QoQ \% | INSPL Est | Variance (\%) |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Net Sales | 3,312 | 2,708 | 2,808 | 22.3 | 18.0 | 3474 | $(4.7)$ |
| EBITDA | 1,046 | 751 | 830 | 39.4 | 26.0 | 1059 | $(1.2)$ |
| Adj PAT | 775 | 554 | 586 | 39.9 | 32.1 | 758 | 2.2 |
| Reported PAT | 786 | 558 | 588 | 40.9 | 33.9 | 758 | 3.7 |

Source: Company Filings; IndiaNivesh Research
Highest ever quarterly PAT in past 14 quarters: AJP adjusted PAT came in at Rs775mn, up $40 \%$ y-y and $32 \%$ q-q. Such strong growth is driven by superior performance in, domestic formulation (DF) and emerging markets, as well as lower material cost. Lower material cost led gross margin to improve from $66 \%$ in $2 Q$ FY14 to $71 \%$ in 2Q FY15. There has been 514bps reduction in material cost as percentage of sales due to lower credit cost, supplying API technology to vendors and higher scale of economy. EBITDA margin has been on improving trend for 14 quarters now. Management has revised its EBITDA margin guidance to $29-30 \%$ for FY15. Other income also increased by $40 \% y$-y supporting adjusted PAT growth of $40 \% y$-y for the quarter. R\&D spent for the Q2FY15 and H1FY15 has been Rs110mn and Rs300mn, respectively. Management has guided for $5 \%$ of net sales to be spent on R\&D for FY15. The R\&D spend would be divided equally for DF, regulated markets and emerging markets, respectively

DF sales growth continue to outperform industry growth by wide margin: Domestic branded sales came in Rs1bn, up 33\% $y-y$. This significant growth is mainly due to $36 \% y-y, 23 \% y-y$ and $39 \% y$ y-y growth in Ophthalmology, Dermatology and Cardiology segment respectively. Pain segment has also started showing better traction. The considerable portion of growth is led by volume growth and new product launches and partly by price hikes. During the quarter, AJP launched six new products, out of which, three were first to market. We expect robust growth to continue for AJP on the back of new product launches and increased market share in existing products.

Increased tender business and new product launches led superior performance in emerging market: Emerging market sales came in at Rs2.2bn, up 27\% y-y and 35\% $\mathrm{q}-\mathrm{q}$. Robust growth in sales was driven by strong growth of $34 \% \mathrm{y}$ - y in Asia market and decent growth of $24 \% y$-y in Africa region. AJP launched ten new products in Africa and two new products in Asia, resulting in such high growth on overall basis. Tender business formed $52 \%$ of total sales for Africa region. Volume growth in Phillipines as well as CIS region led to strong growth in Asia region. We expect healthy growth in emerging market led by higher tender business and new product launches.

Efforts on track to make regulated market as a new growth driver: AJP's cumulative ANDA filing stands at 25. AJP has approval for 2 ANDAs and has launched one in US through its own front end. AJP had sales to the tune of Rs10mn from this product. AJP has guided for atleast 6 ANDA filing every year over next 2-3 years.

Capex update: The capex program at Dahej and Savli, both located in Gujarat, is on track. AJP has spent Rs1.79bn till date out of Rs2.2bn to be spent in total. AJP expects
commercialization of this facility by Q1FY16. AJP has envisaged capex of Rs1.8bn for Savli facility and have spent Rs150mn till date. AJP has guided for construction to start in Q3FY15 and complete it by Q2FY17.
Valuation: We maintain our earnings estimates for FY15/FY16 and price target of Rs1,569 based on 17x FY16E EPS of Rs92.3. We remain confident on business model of AJP due to superior historical performance as well as key drivers in place to maintain momentum going forward. However, the current valuation of 24.1x FY15E and $20.5 x$ FY16E earnings seems to have moved ahead of fundamentals. Hence we downgrade the stock to SELL from HOLD.
